For almost thirty years, prayers from Aslan's Place have acted as starting points as ministers, groups and individuals work to follow the lead of the Holy Spirit in generational prayer. These prayers have been developed during Aslan's Place events, Bible studies, prayer sessions and through revelation. They provide an opportunity to enter into new freedom as you exercise the authority you have through Jesus Christ over your life and family line.

Photovoltaic Water Pumping Systems: Concept, Design and Methods of Optimization looks at the potential of effectively designed PVPS and how they can be commercially efficient and economically competitive to grid connected or diesel generator (DG) based pumping systems. The low energy conversion efficiency of PV modules, nonlinearity of PV module/array I-V characteristics and the unique maximum power operation point are major challenges of this technology, this book provides readers with design and optimization methods, codes and critical analysis of the recent developments in PV pumping systems. Focusing on system feasibility and suitable applications with design procedures, this reference presents a critical analysis of PVPS field performance, modeling and control strategies using artificial intelligence techniques. A suitable text for researchers, engineers and graduate students who are working in the field of photovoltaics and pumping and systems. Uses open source Matlab codes for PV pumping system optimization Provides global cases studies and design examples for comparison Includes a data source sheet for proposed systems for successful implementation methods

People are hungry for greater spiritual freedom in their life. In our ministry at Aslan's Place we've seen this evidenced in hundreds of requests for our prayer book, Generational Prayers. What's the connection? God has used these prayers to bring remarkable freedom to people. As requests have grown and more prayers have been added, God led Paul L. Cox to compile them into a new book, Come Up Higher. Written and edited by Paul along other contributing authors, this book explores the Biblical, theological, and historical settings of forty-two prayers that God has used to impact lives. Discover more of the freedom God can bring through prayers in the pages of Come Up Higher. This is a great resource whether for personal use, or as a reference manual for prayer ministry with others.

Clinical psychologist and author of The Defining Decade, Meg Jay takes us into the world of the supernormal: those who soar to unexpected heights after childhood adversity. Whether it is the loss of a parent to death or divorce; bullying; alcoholism or drug abuse in the home; mental illness in a parent or a sibling; neglect; emotional, physical or sexual abuse; having a parent in jail; or growing up alongside domestic violence, nearly 75% of us experience adversity by the age of 20. But these experiences are often kept secret, as are our courageous battles to overcome them. Drawing on nearly two decades of work with clients and students, Jay tells the tale of ordinary people made extraordinary by these all-too-common experiences, everyday superheroes who have made a life out of dodging bullets and leaping over obstacles, even as they hide in plain sight as doctors, artists, entrepreneurs, lawyers, parents, activists, teachers, students and readers. She gives a voice to the supernormals among us as they reveal not only "How do they do it?" but also "How does it feel?" These powerful stories, and those of public figures from Andre Agassi to Jay Z, will show supernormals they are not alone but are, in fact, in good company. Mavelously researched and compassionately written, this exceptional book narrates the continuing saga that is resilience as it challenges us to consider whether -- and how -- the good wins out in the end.
