Boeing Design Manual 6716 Best Version

Extensive research into what affects comfort led Boeing to many design innovations on the 787 family, including Large, spacious cabin: The 787 ' s cabin architecture creates a strong sense of spaciousness with its broad, welcoming entryway, large windows and vaulted ceiling. The 787 cabin is wider than that of the airplanes it replaces, so passengers enjoy more personal space, both physically ...

Boeing: 787 By Design

boeing has done design work to reduce tail strikes, including implementing an improved elevator feel system in some airplanes. For example, the 747-100/-200/-300 has varied feel (column forces) throughout the center of gravity (cg) and weight envelope. the newer 747-400 ' s elevator feel system design provides a constant feel elevator pressure, which has reduced the potential of varied feel ...
