Gros émoi dans la presse de Los Angeles lorsque le Dr Mate est retrouvé mort dans Mulholland Drive. Il faut dire que, considéré comme " l'Ange de la Mort " par certains et " la Bonté incarnée " par d'autres, Eldon H. Mate a beaucoup défrayé la chronique de son vivant. Cela faisait en effet des années qu'il pratiquait, et ouvertement, l'euthanasie dans une Californie où ce suicide assisté ne fait pas l'unanimité. En plus, c'est dans le véhicule où il aidait les gens à mourir qu'il a été retrouvé et, détail sordide, ligoté à la " machine " même où ses patients vivaient leurs derniers instants. L'enquête est confiée à l'inspecteur Sturgis qui demande l'aide de son ami, le célèbre psychologue Alex Delaware - qui accepte, mais se sent bien gêné par ce qu'il sait.

A reappraisal of Napoleon the man. Roger Williams' biographical study shows how medical evidence can be used as historical data to refine our view of the past. For an accurate picture, he examines the medical evidence of the case, the emperor's psychological make-up, and the external pressures on him: the Crimean and Franco-Prussian wars, government reforms, the competence of his advisers, the political finagling of the empress, the assumptions and reactions of foreign governments. Originally published in 1972. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.
