They were instrumental in opening up the various Emigrant Trails (widened into wagon roads) allowing Americans in the east to settle the new territories of the far west by organized wagon ...

Before his most fabulous adventure (celebrated by John G. Neihardt in *The Song of Hugh Glass* and by Frederick Manfred in *Lord Grizzly*), Hugh Glass was captured by the buccaneer Jean Lafitte and turned pirate himself until his first chance to escape. Soon he fell prisoner to the Pawnees and lived for four years as one of them before he managed to make his way to St. Louis. Next he joined a group of trappers to open up the fur-rich, Indian-held territory of the Upper Missouri River. Then unfolds the legend of a man who survived under impossible conditions: robbed and left to die by his comrades, he struggled alone, unarmed, and almost mortally wounded through two thousand miles of wilderness.

Mountain man and fur trader Jedediah Smith casts a heroic shadow. He was the first Anglo-American to travel overland to California via the Southwest, and he roamed through more of the West than anyone else of his era. His adventures quickly became the stuff of legend. Using new information and sifting fact from folklore, Barton H. Barbour now offers a fresh look at this dynamic figure. Barbour tells how a youthful Smith was influenced by notable men who were his family's

neighbors, including a member of the Lewis and Clark expedition. When he was twenty-three, hard times leavened with wanderlust set him on the road west. Barbour delves into Smith's journals to a greater extent than previous scholars and teases out compelling insights into the trader's itineraries and personality. Use of an important letter Smith wrote late in life deepens the author's perspective on the legendary trapper. Through Smith's own voice, this larger-than-life hero is shown to be a man concerned with business obligations and his comrades' welfare, and even a person who yearned for his childhood. Barbour also takes a hard look at Smith's views of American Indians, Mexicans in California, and Hudson's Bay Company competitors and evaluates his dealings with these groups in the fur trade. Dozens of monuments commemorate Smith today. This readable book is another, giving modern readers new insight into the character and remarkable achievements of one of the West's most complex characters.

After retiring his guns to raise a family and build a herd, ex-legendary gunslinger Smoke Jensen realizes he must re-enlist his Colts or die when he accidentally rides into the middle of the biggest range war of the decade.

record-breaking adventurer who climbed every mountain in England and Wales in just six months - the fastest ever time. Solo and unsupported, he walked over 1,000 miles and ascended five times the height of Everest during his 446-peak challenge. And he did it all on his days off from work, proving it is possible to integrate an epic adventure into your everyday life. From collapsing tents and horrific storms to near-fatal mountaineering mishaps, James endured his fair share of hardship out in the hills. But the good times far outweighed the bad. He slept wild under the stars, met eccentric locals, and exchanged the 21st century social media bubble for a simpler, more peaceful existence. What did he learn along the way? That life is more fulfilling when you switch off your phone and climb a mountain. Readers will be inspired and motivated by James's amazing adventure, and so the book concludes with a section on how YOU can achieve your next adventure - whether it's something to get the kids involved in at half term, a fun challenge to tackle solo or with friends, or, like James's, a record-breaking attempt of epic proportions, James will guide you through everything you need to do to plan and execute your adventure, as well as give you some great ideas too.

The New York Times–bestselling story collection from those who thrived in the Wild West: Washington Irving, the Lewis and Clark Expedition, and others. The “mountain men” were the hunters and trappers who fiercely strode the Rocky Mountains in the early to mid-1800s. They braved the elements in search of the skins of beavers and other wild animals, to sell or barter for goods. The lifestyle of the mountain men could be harsh, existing as they did among animals, and spending most of their days and nights living and camping out in the great unexplored wilds of the Rockies. Life outdoors presented many threats, not least among them Native Americans, who were hostile to the mountain men encroaching on the area for their own purposes. For a certain kind of pioneer, this risk and more were outweighed by the benefits of living free, without the restrictions and boundaries of “civilized” settlements. Included in this collection are tales from
